Rotary Moment 533 – by Bob Shoemaker *The Four Way Test – Cynthia Granger*

In the heart of the depression seventy-five years ago Rotarian Herbert J. Taylor wrote the 4-Way Test of the things we think, say or do. This ethical statement has been widely adopted by Rotary Clubs all over the world. Many clubs recite the 4-Way test at each meeting, as our club does, because it places a goal of fine ethical behavior before Rotarians at regular intervals in a simple and concise way. Although the 4-Way Test was not written with Rotary in mind, nor has it ever been a part of the official documents of Rotary International, it nevertheless has found wide international acceptance in Rotary. In the Spanish and Portuguese speaking clubs its title is translated into their languages as the quadruple principle.

Herb Taylor created the test as a means of trying to improve the production and sales performance of the Club Aluminum Company that he headed in the face of unethical behavior practiced by some competitors. His efforts were successful and his company prospered through the remainder of the depression. The 4-Way test was later copyrighted and the copyright assigned to Rotary International
